YourFarmAndGarden.com

Welcome to Your Farm and Garden!

With over three acres of grounds, we are confident you'll find your perfect selection of plants, shrubs, trees and more!

Please use our complimentary grounds map to locate your products of interest, whether inside our store, the greenhouse or in the outside beds.

Our map doesn't take the place of our friendly gardeners being available for assistance. In fact, we love to help you, answer all your questions and personally help you make your selections!

As plants are seasonal in nature, our inventory changes though many products are in-stock throughout the year.

Spend a few minutes — or a few hours browsing our aisles. We are confident you'll find something new every time you visit us!

Due to seasonality and/or inventory levels, occasional changes to products may occur that are not reflected on this map. If you cannot locate a product, please ask. We are always here to help you!
